

Australian Bush Flower Essences - College Course – Tamworth

**At: Golden Horizons 105 Bridge St Tamworth
Commencing 27th June 2009 for 4 weeks**

1pm – 5pm Saturdays

27th June & 4th & 11th July & 1st Aug

Costs: \$250.00

This beautiful course is for everyone with an interest in natural healing either for themselves, their family, or professionally.

The ABFE College course was developed by and is fully accredited by Australian Bush Flower Essences and has been taught in naturopathic colleges for over 20 years. However because it contains such valuable knowledge (that anyone can use), it is now being made available to members of the community and practitioners in more informal venues outside major cities.

If you have already attended the weekend and one day workshops, you will find the information in this course new, and from a different perspective.

However, you don't need to know anything about flower essences or natural healing to do this course, nor even have an intention of using the essences on anyone other than yourself, your family, pets and friends. We start with the basics and by the end you will be a confident and competent flower essence practitioner.

If you are a professionally qualified practitioner, you will find this information exceptionally useful in your clinical practice, enhancing your existing knowledge base and modality.

You will learn:

- The history of the development of Flower Essences
- How Flower Essences work
- The Doctrine of Signatures
- The Healing Power of Nature
- Human subtle energy anatomy (the chakras and the aura).
- How thoughts and emotions affect wellbeing and the cutting edge science validating the ancient healing systems of Ayevedic Medicine and Traditional Chinese Medicine.
- Major emotional issues and corresponding Essences for each theme
- All 69 Essences in the Australian Bush Flower range, plus our ready made combinations

- How to choose a flower essence and formulate a blend
- How to actually prepare an individual Flower Essence, which you then take home, use, and observe its effects
- Different methods of Bush Essence application
- Case Histories for discussion in class
- Diagnostic techniques - rational and intuitive
- How to interview, assess and evaluate your clients and to confidently select flower essences, including prioritising, compliance and follow up interviews
- Basic counselling techniques and people skills
- Naturopathic principles

Further, as a journey through the chakras, this course has the potential to be a gentle yet profound healing experience on a personal level. Many people describe it as life changing

At the conclusion of the course, you will receive a Certificate from Australian Bush Flower Essences, equal to that obtained by naturopathic students who have completed this course in formal Naturopathic Colleges. An additional qualification of "Advanced Practitioner Certificate" is available upon submission of three cases histories of suitable quality after course completion.

Energy medicine is at the forefront of creating a whole new world of options and outcomes, not just for practitioners, but for everyone. The Australian Bush Flower Essence College Course explores and teaches this new paradigm of health and wellbeing based on subtle energy systems, creating new opportunities for "healing the whole person".

**If you intend on studying anything this year, choose this course!
This is a "must do" opportunity!! .**
